SUMMARY

As a fresher eager to enter the IT field, I am enthusiastic about learning new technologies and am committed to contributing to innovative projects. My goals is to leverage my skills and passion for technology to make a significant impact within a dynamic team.

TECHNICAL SKILLS

Python	HTML, CSS	MS Word
My SQL	Flask (Begginer)	MS Excel
AWS	Power BI	MS PowerPoint

PROJECTS

Personal Expense Tracker (PYTHON)

- Developed a Python-based personal finance application to track daily expenses, categorize spending, and generate monthly reports.
- Integrated user input validation and file storage for maintaining financial records.
- Used data structures like dictionaries and lists for storing and manipulating expenses.
- Implemented basic analytics and visualizations using libraries like Matplotlib.
- Gained experience in data management, error handling, and creating user-friendly interfaces.

Blog App (Flask)

- Developed a full-stack blog application using Flask, where users can create an account, post blogs, and edit their posts.
- Implemented user authentication and authorization to allow only registered users to access personal features.
- Designed and built an intuitive UI to enhance user experience with HTML, CSS, and JavaScript.
- Integrated a SQLite database for efficient storage of user data and blog content.
- Utilized Flask's templating engine (Jinja) to create dynamic web pages.
